card
Mr. Joseph Brousek
66 Westmount Avenue
Toronto, Ontario
Canada

Dear Mr. Brousek,

On behalf of Mr. Dulles, I wish to thank you for your letter and the enclosure depicting your energetic anti-Communist activities.

The situation with regard to your solicitation of United States Government support remains as our representative described it to you on May 1, 1958 during your visit to Washington. While we appreciate all efforts furthering the objectives of the Free World, we cannot interfere in what remains an internal affair of Canada.

Sincerely,

(EXECUTIVE REGISTRY FILE)

CONFIDENTIAL

Toronto, April 18, 1959 .

Monourable
Allen Dulles ,
Director , Central Intelligence Service,
W a s h i n g t o n , D.C. USA .

Dear Sir :

I take this opportunity to send to your kind attention my statement on situation in the Republic of Cuba and my addresses, messages and program since 1955.

This is a very small part of our activities, whic create a strong pressure on Candian public oppinion and Government. The constant co-operation with United States authorities was established. New organizations were created to combat Communism, number of anti-Communist articles were published

Unfortunately Communists in Canada are progressing and our counter provisions must be raised. This my statement was endorsed by other Canadian agencies and the warning of Mr. J.E. Hoover, F.B.I. Director confirms, that Canadian Communists will also go " in full scale actions" here. The Ethnic groups are one of main targets. Communists need to destroy this defence-line and to gain bases for further progress. I pointed many times in past, that Canada is one of main concentration centers for Communist activity against the United States.

Here among the Ethnic people is a great number of devoted anti-Communists. They must be organized and take a geater part in the protection of the American continent. Therefore my plans for future are :

To reorganize my present groups and extend our activities all over Canada. To create a unit in the Canadian Institute for External Affairs, in the Institute on Public Affairs and in the United Nations Association to influence their policies to be strongly anti-Communist and co-operate as much as possible with the United States. To establish a local Committee of the Assembly of the Captive European Nations in Canada to strengthen the anti-Communist efforts among Ethnic groups.

I am working also on special instructions for Ethic^N leaders: How to counter attack and destroy Communist subversive activities and expansion. I would like to send a copy for your attention.

I always declared openly, that only the closest co-operation with the U.S.A. is most important and critized strongly all anti-American inten-

CONFIDENTIAL

tions in the Canadian Institute on Public affairs and also the Conservative Party including our Prime Minister during his election campaign and at the opening of our Parliament 1957 for their anti-American spirit. / Please see inclosures /. My objections had good results. A number of letters from Members of the Canadian Government can prove these facts and can be produced.

Naturally this activities and efforts requires hard work and causes financial expenses. Unfortunately the Canadian sources did'nt support us and therefore the U.S. support will be extremely much appreciated.

I will be very happy to inform you from time to time about our efforts and anti-Communist activities in Canada.

With best regards very respectfully yours

Joseph Brousek

A statement on situation in Republic of Cuba for information of Members of
Democratic Governments, Assembly of Captive European Nations, Christian
Democratic Union of Central Europe, International organizations and Highest
Democratic Representations of nations enslaved by Communists.

The great number of articles of International Press Agencies describing the
revolution and situation in the Republic of Cuba was so confusing, that only careful
study and personal observation could secure the correct view.
Dictator F. Batista's administration who strictly controlled Cuban Press and Radio and
released only information favorable to his regime has still some influence on public
opinion in the Democratic world. Also Batista's attitude against Communism, regardless
of his former co-operation with Communists expressed in International fields gained him
many friends among democratic sources. Therefore the information, released by him was
naturally favorable to his cause. Batista opposed the truth and reasons for the struggle
and methods used by him to suppress a revolution. He accused rebels of all kinds of in-
justice and Communism, which tricked F. Castro, but created conviction, that Communists
were strong supporters of the revolution associated with F. Castro. When F. Castro
after the revolution lifted the restrictions against Communists he also made possible
their reorganization, activity and propaganda. Also the presence of several leftists in
lower revolutionary positions created feeling, that the Communist influence existed in
the revolution.

However the interviews of great number of Cuban citizens of all classes labourers.,
industrialists, professors, clergy and leading personalities including F. Castro and
Secretary of the State Dr. Agramonte convinced me, that the main factor in the success
of the revolution was decided by general resistance of the majority of the people
against the methods of dictator Batista. F. Castro gained sympathy at the beginning of
his efforts 1956, because Batista seized power 1952 in a non-democratic way. Therefore
Batista in order to suppress the revolution and to maintain his dictatorship increased
the police regulations. He established several special police organizations, who gra-
dually became a source of all the state power. This police especially since 1956 used
means and methods contrary to all International laws and committed thousands of crimes
and murders against innocent citizens. Prisoners were tortured by special instruments,
women insulted by means similar to Gestapo's during Hitler's regime in Europe. Thousands
of innocent citizens were killed shot or hanged nights and days in their homes, country
or on the streets. Eyes and nails were pulled from prisoners, number of mass graves was
discovered. Sadism, terror and fear ruled the country. The number of victims killed by
Batista's police exceeded 20,000.

When the revolution was completed and F. Castro started to administer justice he sought
out those who had perpetrated the hideous crimes under dictator Batista and bring them
to justice. Punishment was given to those who had tortured and murdered more than one
civilian.

The above mentioned resistance of a majority of the nation and finally army caused the
success of F. Castro. After the revolution almost all the people were happy, freedom and
democracy were restored. But the revolution brought also many problems for new government.
Many experienced persons were retired from their positions because of former allegiance
to Batista's regime. Reforms and necessary improvements multiplied difficulties in admi-
nistration of the country. A great shortage of specialists, instructors and organizers
was noted. Industry and business were slowed down because the international investors
took reconsideration their investments and are waiting further developments. This caused
again more economic problems. The unemployment reached 700,000 people. 40 % of nation is
uneducated, Cuba needs schools and teachers.

Each day the demonstrations took place at Havana and other towns. Labourers asked raise of wages and social advantages, students demanded reformation of schools, unemployed families wanted opening of "Casinos", employees accused by Communists of pro-Batistism and retired from their jobs asked for re-employment. Major demonstrations took place at the palace of the President.

Standards of living are generally low / labourers are paid 2-6 dollars a day, in the country the low standard of living is unbelievable. People are living in primitive huts without floor and ceiling, without furniture unfit for human habitation.

New regime and Communists. -----

The new government including F. Castro is not Communistic. Communist influence was noted in labour movements and some lower positions of public life. Some distinguished persons accused openly especially Raul Castro and Ernesto Guevara, Commander of Fort La Cabana and some of less important persons of leftism and Communism.

Communists hid during the revolution when they learned, that F. Castros success was secure they went into actions trying to seize as much as possible. F. Castro refused their interference and support, but the existence of Communist organizations is a new danger for the Cuban nation. This movement hid under the name - Partido Socialista Popular - led by Dr. Marinello who has approximately 10-15,000 followers, but some sources are estimating their strenght more than 50,000. Communist newspaper "Hoy" has about 10,000 editions daily. Dr. Marinello during my visit was in Moscow. Some of his former teachers stated openly, that he is mentally ill and his chief aim is to be President of Cuba. Communists are re-organizing their forces especially among Sugar-cane-workers. Some prominent persons do not believe, that Communists will gain 100,000 signatures to create a party needed according the Cuban constitution. Communists believe, that they will be strong enough to gain some positions in government in the forthcoming elections. The arrival of a number of International Communistic agents and organizers from outside the country and because of the upset conditions prevailing in the Cuba gave a strong impression that Moscow realized here was a fertile ground for Communist aggression and expansion. I brought these facts to the attention at a conference with F. Castro and suggested to him personally to control Communist movements. My impresion was, that F. Castro knows fully the Communistic danger but his answer was : " Not by force." I advised the same to Secretary of State Dr. F. Agramonte. His oppinion was that a good Cuban government will decrease the Communist danger automatically, and agreed to be in further contact in this matter. Generally I believe that leading Cuban persons have not the proper knowledge about Communists, their efforts, abilities and subversive activities. They are also underestimating the Communist danger and menace. Finally the great number of all kinds of problems makes it difficult to solve Communism immidiately. On the occasion of my visit I organized a unit to combat Communism.

Conclusion : - - - -

I had the feeling, that F. Castro has sincere intentions to help the Cuban nation who suffered very much during Batista's regime. 3 billions dollars were seized by him and his helpers and one billion dollars of debt remained at Batista's departure.

The agricultural reform is one of most essential experiments and only the future will prove the benefit for national economic betterment.

Pressure of problems and difficult economic situations are causing some of the unpleasant Castro statements. Some prominent persons are predicting that the present government will be exchanged for leftists. Communists are the sources of the anti-Americanism, but the Cuban people are devoted friends of U.S.A. and the Free world.

The general situation requires the promotion of all kinds of good relations, especially commissions to study economic possibilities, instructors and specialists who can help the Cuban republic to solve their fundamental problems and difficulties.

Friendly dealing therefore is the only proper approach to Cuban affair, possitive attitude to Castro's regime, establishing of missions and representations and close co-operation with the new Cuban government is the proper way for our democratic and anti-Communistic international intentions.

Havana - Republic of Cuba, March 1959.

Joseph B R O U S E K .

Joseph BROUSEK, President of CDUCE and Vice President of the
- - - - - Council of Free Czechoslovakia in Canada. - - - - -
Christmas and New Year Message to the Representatives of CDUCE, Ethnic Groups
and Editors.

Gentlemen:

The coming hallowed season gives me an opportunity to wish you with all my heart to utilize all the majestic gifts of God's Infant, whose birth we will celebrate at Christmas.

Unfortunately our happy life, peace of mind and tranquillity has been disturbed by hellish powers - INTERNATIONAL COMMUNISM - whose chief aim is to conquer and dominate the world and to deprive Christian Society of all advances dedicated to the cause of liberty, progress and spiritual elevation for world betterment. It would appear, that Red barbarism would reduce Christian civilization to the oppressive period that existed before the birth of the Savior. Events of the passing year recall to our mind vividly this satanic design in the Middle East, China and Berlin which brought suffering and terrible ordeal to thousands innocent victims and to the fact, that before a solution will be found, the Moscow mongers will foment several other strikes somewhere in Asia, Africa or South America. But this Communist penetration and pressure is alerting great anti-Communist movements in almost all democratic countries. Those forces will be strengthened in next years to crush this menace. The future years might well be designated as the beginning of the "afternoon of the life of Communism". In Canada the Communist activity and influence noted in all sections of daily life is forcing us to raise our attention and begin with the "general mobilization of all our forces and in the forthcoming year pass over into COUNTER-ACTIONS to meet our enemy on the BATTLEFIELD". Words, speeches and declarations that Communism is dangerous, destructive and unhuman without proper provisions and actions will not overcome this evil. Only thousands of us, united in common task can limit the Red plague to a minimum.

Therefore the only solution to this problem is to create units and organizations who will counter-attack, destroy and liquidate Communist activity in Canada. Each organization could have three sections:

- 1./ For observation of Communists and their subversists.
- 2./ For information of Canadian Government, defence and public sources.
- 3./ For counter-actions to overcome Communism priorly among ethnic groups.

Don't be affraid of Communist threats, blackmail or tricks - be certain, that great security and democratic forces are behind you and also that Communists are a group of cowards retreating always when resistance is demonstrated and I will be always honoured to assist you as much as possible.

May I conclude my letter with this declaration:

"We must reverse the present situation and to pass over from defensive to offensive using all our powers and abilities to overcome the Red plague for maintenance and restoration of the Christian order, ideals and unified Society living in peace and harmony."

May the New year 1959 bring you a full measure of blessing, happiness and fulfill all your wishes and desires.

I remain very sincerely yours

Joseph BROUSEK.

WE SALUTE THE UNCOMPROMISING ATTITUDE OF U.S.A. Second edition.
AGAINST INTERNATIONAL COMMUNISM.

J o s e p h B R O U S E K , President of CDUCE and Vice-President of Council
- - - - - Free Czechoslovakia in C a n a d a . - - - - -
Comments on " Anti-Americanism " to the Leaders and Editors of the Ethnic Groups
- - - - - and Press . - -

G e n t l e m e n :

Years ago the Communistic International Bureau very carefully prepared a plan for world domination by unusual means and manners. / See Lenin's plan: "First we will take Eastern Europe, then masses of Asia. Then we will surround America, the last citadel of capitalism. We shall not have to attack. She will fall into our hands like an overripe fruit" /

Their lies, tricks, frauds, dishonesty was to incite one class of the people against the other, one nation against the other nation, one race against the other race, children against the parents, the pupils against the teachers--are their weapons. They attempt to incite small or large conflicts and revolutions and with the assistance of the primitive and criminal elements to seize one country after the other.

The experiences of the past years confirm, that this evil has had considerable success. In Europe the Vatican and several countries after started the resistance. The United States of America, a citadel of democracy took up with full strength and authority the attitude against this approaching evil. U S greatness reduced to some extent communistic expansion.

Naturally the "Moscow-Brains" loosened all their subversive communistic network and machinery created for years against the USA: " ... USA is bad because they financed your country, USA is bad because they didn't finance your country, USA is bad because they are interested in your affairs, USA is bad because they are not interested in your affairs, USA is bad because they should, USA is bad because they shouldn't, USA is bad, bad, bad...." This is the cry heard from the red trumpets of Moscow's radio, press, hidden inciters and nonthinking idiots of all countries pretending a local nationalism. The Red Masters, who inherited the "Goeboels theory" believe that " a red lie repeated a hundred times will become a truth". It is with regret we noticed, that also in Canada some of non-communistic prominents were misled.

The USA have not obligation to any country or nation and their support, protection and aid, should be gratefully appreciated, which is the natural, correct and moral way. But the Moscow commands the reverse attitude, i.e. the perpetual complaining dissatisfaction.

You gentlemen, who have experience with communists, you, who know the communistic tricks, can help very much to limit these dangerous communistic maneuvering by advising the people who are creating "Anti-Americanism", and all other kind of confusion. You can convince your organizations and all sources with which you are connected, that at the present time it is very dangerous to support all intentions for disunity in the democratic world and point out the above mentioned facts. The communistic expansion does not permit us to fight among ourselves and only united front of all anti-communists will bring to defeat of the worst threat the world has even known and save the freedom of Canada and Western countries.

I would like to remain the warning of President Eisenhower on communism :

"... Every human action is pressed into service as a weapon of expansion. Trade, economic development, military power, arts, science and education - the whole world of ideas.... an intensive offensive has been mounted by the communists imperialists against free nations. This non-military drive, if underestimated, could defeat the free world regardless of our military strength...."

Toronto, Ont. June 19, 1958.

Sincerely yours

Joseph B R O U S E K .

Joseph Brousek's A D D R E S S to anti-RED CHINA RALLY - Massey Hall -
- - - - - Toronto , Ont. Sept 14. 1958 - - - - -

Mr. President , Ladies and Gentlemen :

The Christian Democratic Union of Central Europe salutes this important gathering of people willing to fight at all fronts against the worst and greatest danger - INTERNATIONAL COMMUNISM - which aims to upset and utterly destroy the whole human society and the whole world.

Our organization therefore will fully support all actions to overcome this menace and I take this opportunity to bring to your attention the most important points of our program :

We will strive for unity of all democratic nations and full support of non-compromise and anti-concessions policy of United States of America and President Eisenhower against the Communist expansion in Formosa and all other places.

We will ask the Canadian Government to take the strongest attitude against the Soviets and fully support United States of America.

We will ask Representatives of Democratic Governments in United Nations to reverse the situation in this organization because they are powerless in their actions against Communist expansion. We will ask again the United Nations to force FREE ELECTIONS in our countries and also in the Soviet Russia.

We will use all lawful means to counteract the Communism in Canada and we will take proper measures against Communist attacks and bothering of our people and organizations by Communist diplomats, their agents and their helpers.

We never gave up the fight for liberation of our countries seized by Communist Imperialists and believe that only complete defeat of Communism will save rights, possessions of society and the whole world. We will take the strongest attitude against politicians, newspapers and all those, who are seeking appeasements, concessions and understanding with Communists. To these people I would like to remind the Lenin's operation plan :

..... " First we will take Eastern Europe, then the masses of Asia. Then we will surround America, the last citadel of capitalism. We shall not have to attack. She will fall into our hands like an overripe fruit...."

Ladies and Gentlemen, we have to fight and we must overcome COMMUNISM. We have not choice. If we will not overcome Communism - Communism will overcome us.

- - - o o - - -

THE FOLLY OF APPEASING THE COMMUNISTS.

An Appeal to our Fellow-Canadians.

In the last few months there has been a tendency in certain sections of the Canadian press and community regarding the correct attitude towards Communism. It started with the wide publicity given in the Globe & Mail to Bertrand Russell's defeatist philosophy and reached its peak in the series of editorials published in the same paper on the question of Formosa and the recognition of Red China. This tendency has recently been aggravated by an anti-American propaganda campaign strongly criticizing both President Eisenhower and Mr. Dulles for their courageous stand against Communist aggression. Considerable publicity has also been given to views expressed by some well-known businessmen and intellectuals, like Cyrus Eaton, James Muir, Oakley Dalgleish and others, who after their recent visits behind the Iron Curtain delighted in becoming self-appointed spokesmen for the gold-wrapped Communist slogan of peaceful co-existence with the West. Even more regrettable was the decision adopted by the Council of the United Church of Canada, which on September 24th openly recommended the recognition of Red China.

Significantly, the above attitude seems to co-incide with a new peak of Communist aggression being felt all over the world and a stepped-up subversive activity apparent even in Canada.

People who know Communism or who had first-hand experience of its horrors - of whom there are many in Canada - are becoming increasingly alarmed by the moral ravage caused by this trend. It aims, first of all, to disorientate and corrupt the instinctively right and healthy anti-Communist attitude of the great majority of the Canadian public. If further creates the entirely false impression that the Canadian people are pressuring the Government to adopt "more flexible line" towards the Communist-dominated countries and a more rigid stand against the United States. Finally, by purposefully withholding important facts from the public, this propaganda grossly distorts and conceals the real threat of world-wide Communist aggression.

No mention has for instance been made by the propagators of the "be good to Red China" policy of the following facts:

According to modest estimates, at least 12 million people were murdered or otherwise "eliminated" by the Chinese Communists while consolidating their power over unwilling people.

Since January 23rd, 1954, 3,900,000 Chinese fled Mao's "Red Paradise";

Nowhere has the Christian Church suffered more severe and brutal persecution than in China in recent years and of 13,000 Catholic Bishops, Priests, Brothers and Sisters only a handful are not in jail or not expelled from the country.

There are almost daily countless references in speeches made by

Chinese Communist leaders about the various activities of a seemingly unbreakable opposition to the Peiping regime throughout the country;

There are still tens of millions of people in China who have to endure the "reform through labour" brainwashing procedure, which has every single characteristic of slave labour;

The Taiwanese people are overwhelmingly anti-Communist and prefer Chiang's Government to Mao's red tyranny. Moreover, the shelling of the off-shore islands was started by the Reds while Chiang's forces are prevented from replying by the US.

Has the world already forgotten that the Hungarian uprising of 1956 has proved once and forever that no people want or accept Communism by their own, free will and are ready to sacrifice everything to shake off its unbearable burden?

In view of the above facts, we, as good Canadians, can no longer leave unanswered the present propaganda, conducted throughout the country. We consider it our moral and patriotic duty to address a united warning to the people of this great country about the grave danger threatening our freedom and democracy by the gradual corruption of our spirit of resistance to Communism. Nobody has ever succeeded in curtailing Communist expansion through appeasement and compromise. The "better red than dead" point of view of Bertrand Russell, the "peace at any price" slogan of the fellow-travelling intellectuals and the "doing business with anybody" attitude of diehard capitalists can become more destructive than the underground work of the card carrying party-member.

The international situation is unmistakably building up towards a world-crisis and a new war, which all sensible persons want to avoid, can only be prevented by a courageous and united stand against Communism. We are going to follow this line whatever consequences it might bring upon us and ask the Canadian public to join us in our struggle.

J O S E P H B R O U S E K , President of CDUCE and Vice-President of the
Council of Free Czechoslovakia in Canada etc. etc.

- - - - - O - - - - -

Remarks on the Session of Parliament.

The majority of immigrants of European origin especially from countries occupied by Communists believe that a certain modesty should be maintained in affairs concerning Canadian public life.

However the steady Communistic attacks and efforts to destroy our democratic organizations, the growing pressure of international communism and past experiences from old countries force us to observe all that might be dangerous for Canada and possibly for thousands of lives of anticommunistic citizens.

It shall be sufficient to bring to attention discussions of my people, who are the sources of these remarks:

The session of the present Parliament is more important, than in the past because our government now represents only a part of the nation when we recall that it was more than 20 years in Opposition.

Some time ago the Opposition /to-day the government/ criticised the so called "Pipeline Affair", but the strongest supporters of the critics and naturally most happy were the communists "fighting together American Capitalism".

During the last election campaign the representatives of Conservative Party gave great pleasure to Communists in their Antiamerican instead of Antisoviet spirit repeating words and slogans which we have heard manytimes from communists. Is it not a fact, that the attention of the nation should be fixed on International Communism which brought society into the greatest danger of destruction the world instead on of "American Capitalism" the leading power carrying the biggest load of defence for the Free World? It is a communistic dream and concept to divide the democracies of the Free world and lull them into a sense of false security.

The Prime-Minister spoke in Prince Albert, Sask. and the communistic press wrote: "Mr. Diefenbaker interceded for friendship between East and West and said

That it is necessary to have regular relations between West and East...."

Both the representatives of our groups and myself have for several years pointed out to the governments of the Free world, that there can be no compromise with deceit or evil, that it is highly dangerous to accept support from Communism or to believe in co-operation or co-existence with this International felon. We know Moscow is steadily completing an underhand program carefully prepared years ago. THE CONQUER OF ALL THE WORLD.

I would like also to remind the Hon. Members of Parliament the declaration of D.Z. Manuilskij in Moscow 1930:

..... "War to the hilt between Communism and Capitalism is inevitable. Today of course, we are not strong enough to attack. Our time will come in 20 to 30 years. To win we shall need the element of surprise. The bourgeoisie will have to be put to sleep. So we shall begin by launching the most spectacular peace movement on record. There will be electrifying overtures and unheard-of concessions. The capitalist countries, stupid and decadent, will recede in co-operating in their own destruction. They will leap at another opportunity to be friends. As soon as their guard is down, we shall smash them with our clenched fist"

Finally I would like to point out: There will be no peace, democracy or freedom in the world and we will always live in constant danger as long as any Communist unit exists. The price of freedom is always constant vigilance.

AUTUMN A.D. 1957.

Joseph Brousek.

Joseph BROUSEK, President of CDUCE and Vice-President
of Council of Free Czechoslovakia in Canada

Letter of information to the leaders of anti-communistic
organizations and editors of ethnic press.

Gentlemen:

During the past several years a number of notes have been sent to government sources by myself and leaders of our organizations to point out that the Communists by all dishonest and most intricate means have been steadily persuing a program leading to world domination. Canada also has its place in the Communist plans.

The ways of Communist work and efforts are very unusual. In countries where mass support is expected Moscow builds parties for revolutionary purposes, in other countries such as U.S.A. and Canada, the Communists prefer to work slower, to build a strong and well organized secret and super-secret underground with the aim:

1. To influence public opinion to provide the covers of a pieceful program to hide this true intuition.
2. To have perfect information /espionage/ service in Canada.
3. To study weaknesses in Canadian life and possibilities for attacks, sabotages and damages in times of crisis.
4. To infiltrate into Canadian life as much as possible.
5. To create troubles and confusions and to keep the spirit of revolution active among the working class and dissatisfied elements.

The United States of America established for its own protection a defensive law that had effective results, which law prevented much trouble to the American people. The Canadian authorities did not consider it important to protect by similar law Canadian democracy and thousands of anti-Communistic immigrants and citizen. The result is that the Communistic underground can take almost any action without fear. For instance, our groups are molested by receipt of thousands of Communistic letters /often in the form of blackmail/, newspapers and visits of Communistic agents, proselytizing and trying to have them join the Communist party, take part in its activities and return to behind the iron curtain. This is

not possible in U.S.A. Naturally, some of our immigrants returned with their property and valuable information to the old countries, some gave up anti-Communist activity, and among many people appears a spirit of fear and uncertainty.

This serious situation was comprehended by some Liberal Members in Parliament. Mr. LaCroix brought on December 17, 1957, in House of Commons, his Bill No. 13, a proposal to amend the Criminal Code /Subversive Activities/ in such a way as to permit the prosecution of organizations and persons engaged in subversive activities. The need of such a law is very great, and it might well be an historical step. Such an act will in any case protect democracy, give feeling of security to our immigrants and save a lot of damages in future.

Unfortunately, the Conservative Members of Parliament from Toronto, Messrs. J.B. Hamilton, M.P., R.H. Small, M.P., D.J. Walker, M.P., F.C. McGee, M.P., and F.C. Stinson, M.P., much to the disappointment of our New Canadian groups have adopted a reverse attitude of Mr. LaCroix's Bill. They have been satisfied to label it as unnecessary, and condemn it as such.

After careful study of their speeches in House of Commons, it is clearly evident that the Conservative Representatives are absolutely uninformed and their view is unimaginative, and, according to our experience with Communists, almost irresponsible.

J.B. Hamilton, M.P., said, it was better to leave the Communists "out in open, subject to public scrutiny" /which is a Communist wish/. R.H. Small, M.P., said, Communists would be more dangerous if driven underground by restrictive legislation. /Mr. Hamilton does not properly know that the most dangerous units have been for years underground and this underground directs the activities in open. The control act will primarily effect the underground/. Mr. Walker argued that the threat of Communism in Canada has re-ceded almost to the vanishing point. /This is also a mistake because Communists are strong enough to create much of trouble, if Moscow should command. Mr. Tim Buck declared recently that Communists will have twenty candidates in Toronto and vicinity in the forthcoming elections/.

Some members of the Ethnic groups voted Conservative in the hope that their attitude toward the Communists would be stronger, but the above mentioned lecture disappointed them greatly.

May I ask you, gentlemen, and editors of Ethnic press to inform your committees and members of your groups about this situation. It is very important for our common sake to give full support to Mr. LaCroix, M.P., and all Liberal Members of Parliament who promised to assist us in our problems and take all steps for the defense of our groups and democracy in Canada.

Sincerely yours,

March 1, 1958

Joseph BROUSEK

Forms Cuban Unit To Curb Commies

A Toronto man has organized an anti-Communist committee in Cuba to work in liaison with several similar Canadian groups.

Joseph Brousek, president of the Central Europe Union in Canada, said a group of 15 "essential Cubans" has been organized in Havana to keep in touch with Canadian anti-Communist work. He returned from Cuba two weeks ago.

"Cubans are very sympathetic to all things Canadian," Mr. Brousek said, "and they were very anxious to hear about anti-subversive work in Canada."

He said the committee includes lawyers, doctors and government representatives.

During his tour of Cuba he met with Fidel Castro who told him a member of the RCMP was in Cuba training Cuban police. (Castro was also reported by news sources to have said Cuban police were in Canada, being trained by the RCMP. Canadian authorities earlier denied both claims.)

The Cuban committee, Mr. Brousek said, will be in contact with the Central Europe Union, Assembly of Captive Nations Council for Free Czechoslovakia, "and other organizing groups."

The Czechoslovak New Canada Club also said Cubans generally favored the idea of continuing to bring to prominence in Cuban politics because of the large percentage of Catholics in the country.

Russ Envoys Deny Mexico Ousted Them

The Mexican Government believes it expelled two Russian diplomats for getting into a Mexican labor dispute.

Capt. Mikhail Romanov and Nikolai V. Almazov, at Union Airport last night, admitted, however, that last because their Government had recalled them and "our tour of duty ended."

They also wanted to report that they knew no English. Then Capt. Romanov spoke some English to officials.

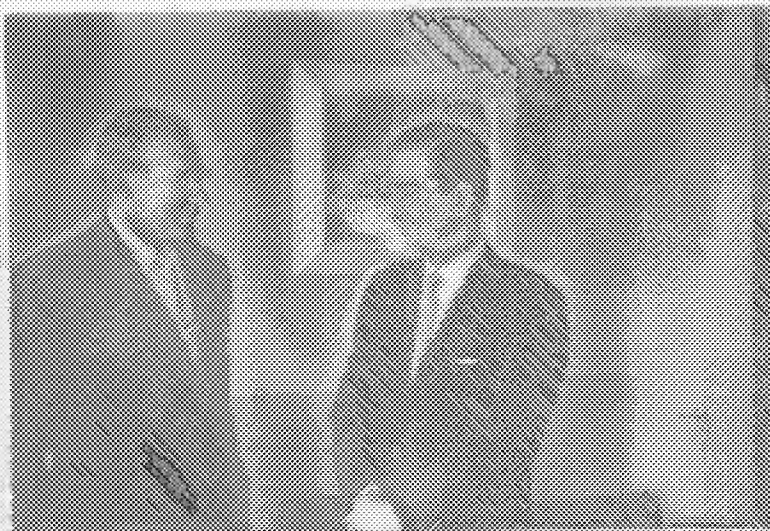

The Mexican Government said it expelled them and charged

FREE EUROPE RADIO

"... Communists must be controlled as soon as possible,"
advised Joseph Brousek to Dr. Fidel Castro in Havana,
February 1959.

"... You have to fight Communism, fight for Freedom of your
country and people, to create a Government in exile, Your
Majesty", advised Joseph Brousek to King of Yugoslavia PETER II,
at Hamilton, Ont. March 21, 1959.

Joseph B R O U S E K , President of Representatives of Czechoslovak Christian Democrats, President of Christian Democratic Union of Central Europe, Member of Presidency of the Council of Free Czechoslovakia in Canada etc. etc.

The Christmas Message to the Representatives of CDUCE and anticommunistic organisation
G E N T L E M E N :

As I addressed my people back home I also take this opportunity of sending to you gentlemen, on these hallowed Christmas days a few words of encouragement .

These last few years we felt very much the communistic pressures, the growing influence and efforts of conquering the free world.

Today with the interior evolution in SSSR and it's communist enslaved countries comes, a presume, also in some government sources, that the grade of communistic danger is lower, that is coming a political relaxation and after time the communism will be destroyed from within.

I believe, gentlemen, that this opinion may not be correct and communism must be overcome by truth and democracy. The interior difficulties of our enemy might be solved if another "Stalin" will appear in Moscow's stage, who might reorganised communistic parties in all world for an bigger danger than ever before.

See D.Z. Manuilskij, Moscow 1930:

" War to the hilt between Communism and capitalism is inevitable. Today, of course, we are not strong enough to attack. Our time will come in 20 to 30 years. To win we shall need the element of surprise. The bourgeoisie will have to be put to sleep. So we shall begin by launching the most spectacular peace movement on record. There will be electrifying overtures and unheard-of concessions. The capitalist countries, stupid and decadent, will rejoice to co-operate in their own destruction. They will leap at another chance to be friends. As soon as the guard is down, we shall smash them with our clenched fist" /

With the admiration and the warmest sympathies we are following the fight of the Hungarian heroes for freedom of their fatherland and we stated in our note to the governments of free world, that without a very strong support of democratic nations the fight of Hungarian democrats will be very, very difficult, because Moscow will use all brutality and dishonest means to suppress the desire for liberty in that country, from the military and political point of view so much for SSSR important. Only uprising in all Central Europe can meet immediate success.

I know very well, gentlemen, that you as representatives of various groups are still targets of communistic attacks and trickery and still not enough support and understanding of authorities is extended to you.

May I suggest you to co-operate with the government sources at all times and I will be always very honored to assist you as much as possible. I am certain that you are sincerely following our sake to defend this great country, its freedom, democracy and all spiritual and cultural values. I am also proud that our anticommunistic activity is growing and you are defending your groups against clever communistic infiltration and trickery.

I thank you very much for your cooperation and wish you the Merriest Christmas and the very best in happy and prosperous New Year.

Sincerely yours

Joseph Brousek.

J o s e p h B R O U S E K, President of the Christian Democratic Union of Central Europe, Member of the Presidency of the Council of Free Czechoslovakia, President of Representatives of Czechoslovak Christian Democrats in Canada, Acting Vice-president of Czechoslovak Association in Toronto etc.

The message to the 25th Annual COUCHING CONFERENCE.

G E N T L E M E N :

I consider the Canadian Institute on Public Affairs to be one of the most important organisations in this country. I am very honoured by Mr. President's letter and his invitation to cooperation.

The conferences dealing with growing number of various public problems can't be but for the benefit of the young Canadian country. This dynamic nation has the privilege of living in a rich country with plentiful natural resources and sound economy. Like in many other countries also Canada's population consist to a great extent of immigrants coming here from all over the world. One of the latest immigration-streams are Central Europeans particularly political refugees from countries behind the Iron curtain.

From your conference it is evident that political and economic representatives of this country are striving to raise the standard of living of the Canadian people and secure freedom and democratic rights for everybody.

All however is at stake and could be easily lost, if the leading men of this country should forget, that international and local communism is still the most dangerous foe of western democracies and that in spite of their present pretense of political and economical friendliness, the communists never give up their final goal of world domination, but just wait for their chance to strike at any weak point, we may show. We know, that right now as manytimes in the past the communists are having their internal difficulties, but they still remain united in their fight against western world on military, economical or political basis. And there is no doubt in my mind, that their friendly faces, their "economical and cultural cooperation" is just as dangerous as their military strenght and threats of atomic warfare.

If I may I should like very much to point out several facts, which have been discussed by thousands of immigrants countless times on many meetings.

1./I think, we do not like the statements of some Canadian politicians tending to indicate Canadian government and U.S.A. of economic and political errors. Such statements are being taken advantage of by communists for the purpose of political propaganda here and abroad. It is our belief, that American people are carrying the biggest load of defence of democratic world and those speaking against U.S.A. will hardly find any support among the many refugees from countries behind the iron curtain.

2./ Furthermore I should like to point out, that the activity of the communist agents is being stepped up more than ever. One of their objectives is making as many refugees return to their native countries as they can. Promises, false pretenses, molesting, blackmail and kidnapping are some of their methods. The Canadian government should take definite steps against these agents who molest our immigrants trying to persuade them to return, no matter what method they use.

3./ Last year and this March again I asked one of the leading immigration officer in Toronto to call government attention to the unfortunate fact that thousands of families of new Canadians / today most of them Canadian citizens / are being held in the communist countries practically without a hope of ever seeing their loved / especially wives and children / ones again as the exit visas are very seldom granted by any communist government. Also there is the fact, that many New-Canadian left substantial properties in their native countries which the communist hold without proper justification. The Canadian government should take at least some steps toward correction of this injustice to thousands of people, who learned to love this country as their own, who take part in its economical and cultural life and who are ready to defend it with their blood and with their lives against anybody.

Toronto, August 5, 1956.

Sincerely yours

Joseph Brousek.

Joseph B R O U S E K , President of the CDUCE and Vice-President of the Council of Free Czechoslovakia in Canada etc. etc.

Christmas Message to the Representatives of CDUCE and anticommunistic organisations.
G E N T L E M E N :

The coming Season gives me the opportunity to wish you the merriest Christmas and the very best in a happy and prosperous New Year.

As I did through Radio by my address to our people I also take the liberty of sending you gentlemen, a few words of information.

The present evolution of world affairs in the Middle East shows that all opinions of the Western representatives regarding the "mellowing and disunity" of International Communism are not correct confirming our statements of many times in the past in our notes to the Governments in the Free World. It also proves, that the communists are strong enough to still create serious troubles in all places, which they consider suitable for their part of the "World Revolution".

A steady observation of the Communistic underground reveals an increase of activity. To an outsider this is made to appear as though the party is facing a serious crisis. This is the case as actually Moscow again is engaged in sending thousands dissenters into the World using new methods to destroy and undermine the defences of the democracies and to be noted that our defensive provisions have not been increased accordingly.

I know, gentlemen, that the majority of you are acquainted with these facts and that you have had enough experience with the work and methods of Communistic spys, saboteurs and disturbers. Your responsibility therefore in the protection of democracy is much greater than one, who knows communism only as an item from a newspaper. You will also be target of new attacks and trickery, because the destruction of "Anticommunistic Organisation" is one of the main points in the communistic plan.

I consider it to be important to again refer to the so called "amnesties" which Moscow still recognizes as very important tactical measures. We are informed, that some satellite governments are preparing new "amnesties" and for this purpose a large numbers of people are trained at great expense and we have sufficient evidence of the fate of those who are taken to the "luring voice of the homeland". They today suffer in concentration camps these "calling homelands" or in Siberia. / Each applicant for these amnesties is carefully investigated and from the first is prompted to commit crimes against Canada and her friends.

It is therefore very important, to carefully and constantly observe the activities within your groups. Again and again you must convince your people, that all Communistic actions are nothing other than very well prepared frauds and tricks for which they will sooner or later suffer if they allow themselves to be mislead.

In view of these facts it becomes very clearly evident, that any dealing or co-operation with communists, their organisations or diplomatic agents is a very serious treason. /Inclusively Tito's and Gomulka's communists./ Not one of us will receive "mercy" or "amnesty" from those whose hands are full of the blood of our brothers and friends, and departure from any communistic country will be not allowed.

I will consider it as great honor to help or assist you in all your problems, and work in your anticommunistic activities for the preservation of freedom, democracy and all cultural and spiritual values of Canada in our Free World.

C H R I S T M A S A.D. 1957.

Very sincerely yours

Joseph Brousek .

Joseph Brousek, President of the Christian Democratic Union of Central Europe, Member of the Presidency of the Council of Free Czechoslovakia in Canada, President of Representatives of Czechoslovak Christian Democrats in Canada, President of the Czechoslovak Association in Toronto, Ontario. -----
New Year message to the Representatives of the DDUCE.

Gentlemen:

The coming Season gives me the opportunity to wish you the merriest Christmas and the very best in a happy and prosperous New Year.

As I did through Radio Broadcast Free Europe by my address to our people back home I also take the liberty of sending you, gentlemen, a few words of encouragement for the coming year.

Many of us enter the New Year with hope and many of us enter it with fear in our hearts.

I regret to say from the viewpoint of the political evolution of today's world and from the point of view of local political developments as well that the strength of communism is growing steadily and that the final stage of the gigantic struggle between the communism and democracy is not so far as many of us may think.

Against the growing power of our enemy we have to answer with stronger and better defence.

We called to attention of the governments of the Free World the great danger of communist infiltration, clever activity and growing influence in Canada and other countries. And we shall do it again as long as it will be necessary.

I know, gentlemen, that you will do your best to defend freedom, democracy and spiritual and cultural values of this great country which communism is trying to undermine and destroy. Drawing on your own experience with communism you can persuade the Canadian people that there is not such a thing as co-existence between communism and democracy, as Kremlin will never give up its final goal of conquering the free world. I know, you as representatives of various groups are frequently targets of attacks and communist trickery and that not always understanding on the part of authorities is extended to you which for the sake of our cause I am certain, you will overlook.

We have to be very careful, as we do not always know where the enemy is hiding and where he will strike next. Investigation committees in USA and spy-affairs in several countries have proved communist influence in public administration, police, courts, industry and educational institutions. I think I don't have to tell you what damage can be done by clever communist underground and strong communist led unions in times of real political crises.

I am certain that in the long run our efforts will bring the right results and that our work will be appreciated by the Canadian people. We have great cause and we are ready to fight for it on the political or military front, and we are ready to fight to the very last ditch.

Joseph Brousek m.p.
